REGARDING PARENT VISITS

LPI programs are designed to offer students a variety of activities and excursions while abroad. Although students are given ample free time, they are required to attend all classes, activities and excursions. LPI works hard to create a healthy group dynamic among students and provide opportunities for language use and cultural experiences. In order to maintain this group dynamic and insist that students abide by the program guidelines, LPI requests that parents do not visit students during the official program dates. If parents do visit during the program dates, LPI kindly requests that parents contact LPI and inform them of their intentions. If the parents' plan affects the student's ability to comply with the program's established itinerary, LPI requires written notification assuming total responsibility for any incident that may occur during that time.

If parents want to visit their students, they are strongly encouraged to visit before or after the official LPI program dates. If a student will be traveling with his/her parents prior to the official program departure date they should notify LPI and arrange for the student to meet the group on the day of arrival. If a student will be traveling with his/her parents after the official program return date, LPI requires written parental permission clearly stating the date and location where the student will be picked up as well as the full name and relation of the person who will be meeting the student.
